

SMART INDIA HACKATHON 2025

TITLE PAGE

- **Problem Statement ID – SIH25093**
- **Problem Statement Title- Centralised Digital Platform for Comprehensive Student Activity Record in HEIs**
- **Theme- Smart education**
- **PS Category- Software**
- **Team ID-**
- **Team Name- Eleventh**

IDEA TITLE

IDEA / SOLUTION :

- A single, **integrated digital platform** to consolidate all student records .
- Provides a verified, **360-degree** view of a student's profile.
- **All in one platform-** academic records, activities, achievements, projects, research, certificates, and complaints.
- Manual verification of student achievements is time-consuming and prone to errors.
- Currently, data is scattered across systems, making verification and transparency difficult.

PROBLEM RESOLUTION :

- **“Eleventh” All in one Digital platform**, which provides –
- Student's records : Student's can view it.
- Institutions : Transparent and structured data for accreditation and rankings.
- Reducing paperwork.

UNIQUENESS :

- Beyond Academics all records can be maintain.
- All in one ecosystem.
- Leaderboard.
- Complaint and Feedback System.
- AI- driven progress tracking.

TECHNOLOGIES TO BE USED

- FRONTEND (React.js)
- BACKEND (Node.js with Express.js.)
- DATABASE (PostgreSQL, MongoDB)
- AUTHENTICATION (JSON Web Tokens)
- CLOUD SERVICES(AWS and GCP.)
- OTHER SERVICES(Git and Figma)

METHODOLOGY , PROCESS IMPLEMENTATION

FOUR DASHBOARDS

Student portal

Access courses, attendance, and academic resources.

Faculty management

Manage classes, students and academic records of students.

Event Organization

Create and manage college events and activities.

Admin System

administration and user management.

ANALYSIS OF THE FEASIBILITY OF THE IDEA :

- ❖ **Technical Feasibility:** The proposed solution is built on a modern, robust, and well-supported technology stack.
- ❖ **Operational Feasibility:** Easily integrated, Simplifies data.
- ❖ **Economic viability:** Low dev cost, Reduce paperwork .

CHALLENGES:

- ❖ Data Security and Privacy
- ❖ User Adoption.
- ❖ Data Integration

STRATEGIES FOR OVERCOMING THESE CHALLENGES :

- ❖ **For Data Security and privacy :** Implement end-to-end encryption for data.
- ❖ **User Adoption :** User friendly interface, Phased Onboarding Strategy.
- ❖ **Data Integration :** Modular API Integration with Pilot Program.

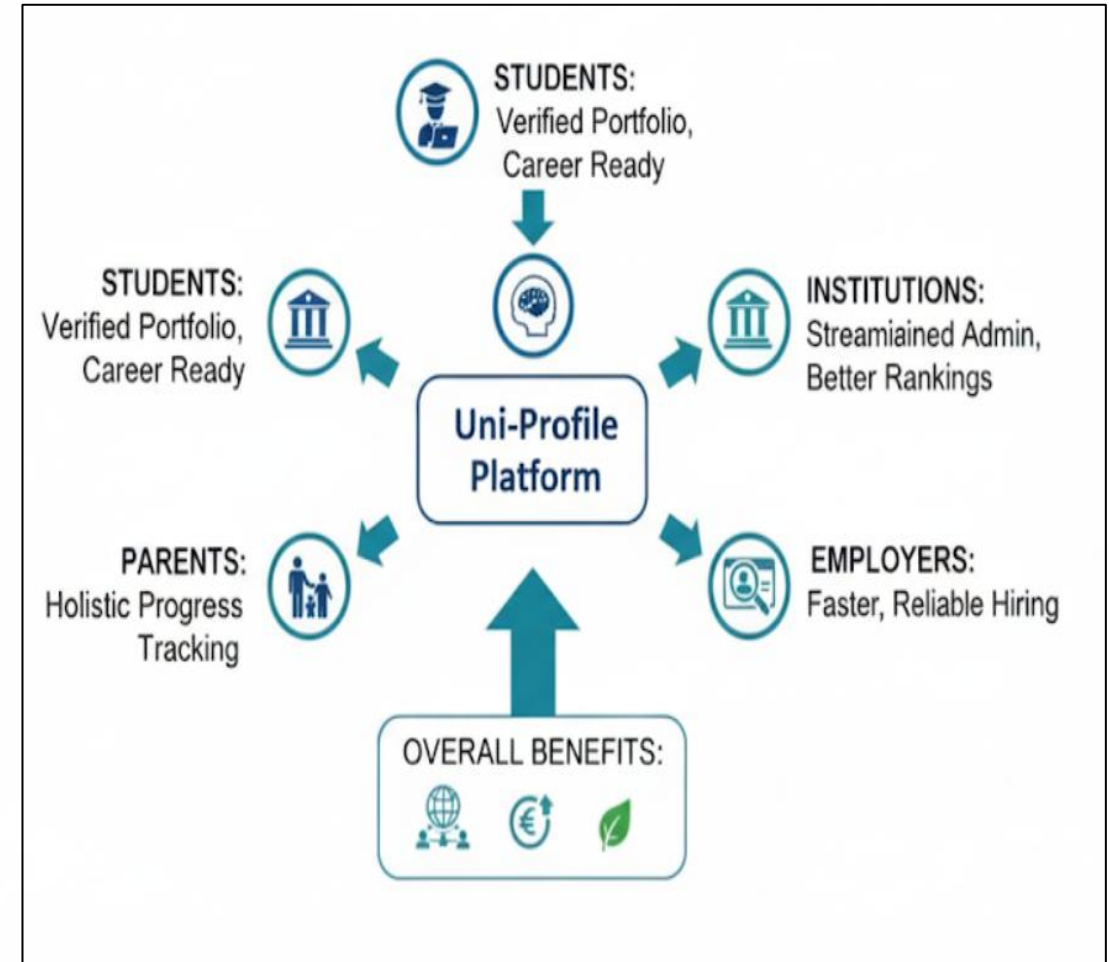

■ POTENTIAL IMPACT ON THE TARGET AUDIENCE:

-  For Students: Verified digital portfolio, saves time
-  For Institutions: Streamlined data, improved rankings
-  For Employers: Faster, reliable hiring
-  Parents: Track holistic progress

■ BENEFITS OF SOLUTION:

-  **Social:** Transparent, merit-based system, holistic holistic development.
-  **Economic:** Reduced admin costs, efficient hiring
-  **Environmental:** Paperless, sustainable process

❖ LINKS OF REFERENCES AND RESEARCH WORK

- **Smart India Hackathon Problem Statement Portal:** Referenced SIH25093 for core problem definition and stakeholder requirements. <https://www.sih.gov.in/>
- **Existing University ERP/MIS Systems:** Analysis of common functionalities and limitations of current systems used in HEIs (e.g., lack of holistic student data, poor UX)
- **LinkedIn/Professional Networking Platforms:**
Studied best practices for digital profile creation and skill endorsement.
www.linkedin.com (general concept)
